

How do I clear my web browser's cache, cookies, and history?

Notes

- To clear your browser's cache, cookies, and history, you can use the following steps:

 - 1. Open your browser's settings menu.
 - 2. Select "Clear browsing data" or "Clear history and cookies."
 - 3. Check the boxes for "Cached images and files," "Cookies and other site data," and "Browsing history."
 - 4. Click "Clear data" or "Clear."
- To clear your browser's cache, cookies, and history, you can use the following steps:

 - 1. Open your browser's settings menu.
 - 2. Select "Clear browsing data" or "Clear history and cookies."
 - 3. Check the boxes for "Cached images and files," "Cookies and other site data," and "Browsing history."
