

Cyber Security
Starts with

YOU!

Is your computer
up-to-date...Patch
it to protect it!
Did you lock your
computer...Lock it
when you leave it!
Are you cyber
secure...Be more
secure!

Is your password
"strong" ...Create
strong passwords
and don't share it!

Use the Right Tools...
...Follow the Right Behavior

Defend Your Computer

Use Strong Passwords

Tips for
Protecting
Personal
Information.
Yours and
Other's

Office of Information Technology Services
Tel: 718-368-6679

What to Do if Security Problems Occur?

1. When using e-mail or other web services, you may encounter spam, phishing scams, obscene material, aggressive behavior or theft of your account or identity. When this occurs:

Report immediately to the service (e.g. look for link or email , etc.)

Report immediately to the Office of Information Technology Services

2. If any sensitive non-public data has been compromised because of theft or loss of a computer or a laptop, portable device, breach of network security or through any other means try your best to minimize the damage and:

Report it immediately to the Office of Information Technology Services

Change all passwords immediately for network accesses and devices after they have been found

For smartphones and PDAs, contact the service provider for help in wiping the data from the device.

For college owned devices contact Office of Information Technology Services
